JCM Global Bill Validation Solutions Power First-ever Currency Exchange Kiosk in Belarus

DUSSELDORF, Germany (24 May 2016) – Currency exchange is one of the most valuable services a bank provides, and now the process is better, smarter and faster than ever in Belarus, thanks to new a new self-service currency exchange service by IBA Minsk (ZAO “International business alliance”), powered by bill validation services from [JCM Global](#).

ASB Belarusbank, the largest and the most innovational financial institution of the country, is the provider of the first self-service currency exchange service in Belarus, and the innovative kiosk operates in self-service zone in the branch office №510/392 in Minsk.

Transactions in the IBA Minsk kiosk are powered by JCM’s award-winning [iVIZION® HC bill validator](#). The exchange terminal provides the bank’s clients with currency exchange operations 24 hours a day, and customers can exchange U.S. dollars, Euros and Russian Rubles.

Speaking for IBA Minsk Mr. Andrei Loika said, “Our self-service currency exchange kiosk works 24 hours a day in self-service mode, without any operator or cash exchanger. Those unattended transactions mean the bill validator must be highly secure and reliable, and we found JCM’s iVIZION to be the most secure, most accurate and fastest bill validator.”

iVIZION combines a 99%+ acceptance rate with the industry-leading Contact Image Sensor (CIS) technology that sees the entire front and back of a note or ticket, along with highly sophisticated anti-stringing technology, providing the highest levels of security.
