JCM Global Brings Advanced New Products, Technical Training to SAGSE 2016

LAS VEGAS (November 7, 2016) – Connecting with customers is at the heart of JCM Global's business, both in terms of creating innovative products and in providing world-class customer service. Now JCM is coming to SAGSE Buenos Aires, where the company will exhibit its newest innovations and will stage a two-day training for slot techs.

JCM is a silver sponsor of SAGSE, and on the tradeshow floor, JCM will be in booth #200, where it will exhibit the iVIZION® and DBV-500™ bill validators, the new GEN5™ thermal printer, and the new Promonet™ 2.0.

iVIZION is the better, smarter, faster bill validation solution that is field-proven in jurisdictions worldwide. The DBV-500 provides the highest levels counterfeit protection and is built with a thick metal frame and housing and has cash box capacity options of 500/1000/1500 notes.

The new GEN5 printer is fully compatible to work with existing platforms and has a faster CPU, faster print speed, and is flexible enough to print TITO and promotional tickets, plus various wager tickets and templated promo coupons. PromoNet 2.0 was created to deliver the right promotion to the right customer at the right time, to both carded and uncarded players, and it takes advantage of GEN5's printing capabilities.

Off the show floor, JCM will conduct a two-day training for slot techs. JCM's engineers will train techs on UBA®, iVIZION, and the GEN2 U™ printer, along with many more topics on software update, and bill acceptor and printer maintenance.

Training is held Wednesday, 16 November and Thursday, 17 November in the JCM Arena, Pavilion 1. Training runs from 9:00a.m. to 13:30 p.m. each day. The training is free for slot techs, and space is limited. Registration is required and is available now by clicking this link: http://greventos.info/sagse_latam/preacreditacion_asistente.asp.

About JCM Global

JCM Global is the world's leading transaction technologies supplier for the banking, retail, kiosk and gaming industries.
