Parts are Parts

Figure 1 SIIG® USB to Serial Adapter

Part No. 302-10004R

Description: SIIG® USB-to-Serial Adapter

Usage: JCM applications such as the JCM ID-003 and JCM ID-024 Basic Driver and JCM Printer Basic Driver require an RS-232 connection. Many Laptop computers do not have the serial communications (RS-232) port required for these applications. The **SIIG USB-to-Serial Adapter (Figure 1)** supports communication to various JCM applications through the Laptop or PC's USB ports. Use the Laptop's or PC's Device Manager to identify COM & LPT Ports where the SIIG USB-to-Serial Adapter is connected and input that COM port number into the application.
