Commencement of extension of Nagahama factory

We would like to announce an extension of Nagahama factory and addition of its facility as follows.

1.Main purpose

As our basic policy, we have decided to manufacture certain products domestically such as large-size products or products that require high technology in production or small quantity of variety of products while we are shifting our production base to overseas, aiming to decrease the production cost.

Under these circumstances, we are going to improve the efficiency of our domestic logistic system by consolidating the shipping storages which are located at the main office, Nagahama factory and outside warehouse as well as dealing with the increased production of money-handling machines which we expect to grow in the future.

2.Outline of factory

Name of factory	Japan Cash Machine., Ltd. Nagahama factory
Address	1 Ban, Shichi-no-tsubo, Shichi-jyo-cho, Aza, Nagahama city, Shiga prefecture
Lot area	14,760 m ²
Present floor space	2,220 m ² (two-story iron frame building)

3.Outline of extension

Floor space after extension	8,200 m ² (two-story iron frame building)
Start of extension	April, 2005
Completion of extension	October, 2005
Start of operation	November, 2005
Total amount of investment	800 million yen (building, production facility, and distribution equipment)

As for the necessary capital, full amount of the funds will be self-financed.
