### **JCM Global Brings “Evolutionary” Products to Australasian Gaming Expo**

LAS VEGAS (July 23, 2014) – [JCM Global](#), the gaming industry’s leading transaction technologies supplier, is bringing its award-winning line of products to the [Australasian Gaming Expo 2014](#). The show takes place 12-14 August at the Sydney Exhibition Centre, and JCM will be exhibiting its “evolutionary” line of transaction technologies on stand #213.

JCM Australia Sales & Business Manager Matt Collaros said, “JCM is better positioned today than at any time in the company’s history to help casinos evolve their operations with transaction technologies that go beyond simple transactions, to creating connections between the casino and its customers.”

JCM will showcase its lightning fast iV8™ table game bill validator. Currently in field trials in jurisdictions throughout Australasia, the iV8 table game bill validator was designed for high-volume table markets, such as Macau and Singapore. iV8 dramatically reduces buy-in time and increases security with JCM’s better, smarter, faster note validation technology.

JCM will also show its line of award-winning and world-famous slot game bill validators, including iVIZION® with Sentry 2™, iPRO™ with Sentry™, UBA®, TBV™ and the iPRO-RC™ with advanced note validation and recycling technologies.

Also on display are JCM’s award-winning Intelligent Cash Box ICB® system and the PayCheck 4™ thermal printer, which prints faster, lasts longer and is equipped with more standard memory than any printer in its class.

Finally, JCM will show its dazzling array of JCMedia products, including wayfinder kiosks, end-cap displays, as well as NanoLumens large format LED displays. JCMedia empowers operators to bring their brand directly to their customers in incredibly rich and flexible displays with easy-to-manage controllers.
