### **JCM Global Takes APAC Operators Beyond Transactions to Real Connections at G2E Asia**

SYDNEY, Australia (19 April 2017) – JCM Global is world-famous for its innovative and award-winning products that help make automated cash transactions as secure and accurate as possible. Now on stand #1325 at G2E Asia, JCM Global will help casino operators throughout Asia-Pacific move beyond transactions to making real connections with their customers.

“Asia Pacific is one of the most exciting regions in the world for gaming, and JCM Global has the products backed by world-class service to help operators succeed by making true connections with their customers. We invite everyone to join us at G2E Asia to discover how our products seamlessly blend security and convenience,” said JCM General Manager of Asia Pacific Ian Payne.

Leading JCM’s exhibition is the landmark and award-winning iVIZION®, one of the most widely used bill validators in the global gaming industry. iVIZION is the better, smarter, faster bill validation solution and captures more than 9.5 million data points on every note. It utilizes CIS (Contact Image Sensing) scanning technology and optical and mechanical anti-stringing technology for the ultimate in security.

Operators of all sizes will appreciate JCM’s iPRO-RC bill validator, which combines the highest levels of security with the convenience of note recycling.

JCM’s award-winning ICB (Intelligent Cash Box) system eliminates multiple points of human error for faster, more accurate drops. Plus, because it electronically matches cashbox to EGM, any box can be used at any gaming device.

JCM will also show two leading printing solutions. First is the GEN2 U, equipped with ITH® (Intelligent Ticket Handling), large paper capacity, and an expanded graphics memory. The new GEN5 printer builds on that foundation, and adds an even faster processor, dual channel communications, and FUZION-ready technology.

When the iVIZION and GEN5 are connected to the casino’s existing casino management system, JCM’s FUZION technology has the potential to turn every slot into a multi-line profit center, with lottery ticket vending and redemption, race and sports ticket vending and redemption, promotional couponing, tax forms, and more.

Last, JCM will show the all-new PromoNet 2.0, the floor-wide couponing solution that delivers the right promotion to the right customer at the right time. Among its many features and capabilities, PromoNet 2.0 can boost revenue, enhance the players experience, and direct promotions to active players.
