LAS VEGAS (May 16, 2022) – High limit players at Angel Of The Winds Casino Resort are now welcomed into the property's stunning Dragon Room with a massive digital signage arch from JCM Global® (JCM).

The Dragon Room is filled with high limit table games and slot machines, and JCM's new DSS® Digital Signage Solution creates a dynamic, graphic-driven new entrance, helping to create a unique and exciting experience and a visual destination on the casino floor.

Specifically, JCM installed a DSS MAX-R™ 1.9mm LED display measuring 14.625 feet wide and 17.875 feet high around the entrance to the Dragon Room. It will showcase a mix of informative marketing and bold creative content, including a 3D Gold Dragon animation produced by the design team at multimedia studio [Render Impact](#).

"A bold, signature entryway catches the eye of guests and entices them to game inside. We couldn't be more pleased with the finished product from JCM. It's a one-of-a-kind display that effectively conveys the appeal of the Dragon Room," said Chief Operating Officer Jeff Wheatley of Angel Of The Winds Casino Resort.

"JCM's MAX-R is a blank canvas for properties to communicate with and entertain their guests. We are excited for Angel Of The Winds Casino Resort to showcase engaging and creative themed content that invites players into their Dragon Room," said JCM SVP of Sales, Marketing & Operations Dave Kubajak.

JCM's Digital Signage Solutions create an amazing viewing experience across the property in 2D or 3D, and in any shape, including flat shapes, cubes, circles, arches, and more. Get inspired in JCM's [Digital Signage Installation Gallery](#).
