### **JCM Global Installs iVIZION, GEN5, ICB at Penn National's new Hollywood Casino Morgantown**

LAS VEGAS (January 10, 2022) – JCM Global® (JCM) has installed its award-winning core product suite – comprised of its iVIZION® bill validator, GEN5® Thermal Printer, and ICB® Intelligent Cash Box system – at Penn National Gaming's new Hollywood Casino Morgantown.

The glittering new Pennsylvania property shines with a variety of slots and table games, an innovative Barstool Sportsbook, and an array of casual and unique dining options. JCM installed its product suite in all 750 games on the casino floor.

The installation is the latest in JCM's longstanding partnership with Penn National Gaming and is the second category 4 casino opening by Penn with JCM technology in the last five months. Previously, Hollywood Casino York opened with 500 slots, each equipped with JCM's iVIZION, GEN5, and ICB.

"We were excited to have JCM's proven products at our recent casino openings in York and Morgantown," said Mike Mueller, Vice President of Gaming Operations at Penn National's casinos in Grantville, Morgantown and York, Pennsylvania. "We were also very appreciative of the prompt and professional support that we received from the entire JCM Team. Opening two new casinos in less than six months was quite a challenge, and JCM delivered at both properties."

"We have worked closely with Penn National Gaming on casinos of all sizes, creating technology roadmaps that position their properties for long-term success with flexible technology that is ready for their future needs," said JCM SVP of Sales, Marketing & Operations Dave Kubajak.
