JCM Global® Expands Partnership with The Mint Gaming Hall at Kentucky Downs, Installs iVIZION® Bill Validator, GEN5® Thermal Printer, and ICB® System

LAS VEGAS (November 16, 2020) – JCM Global® and The Mint Gaming Hall at Kentucky Downs have expanded their partnership again. Now, JCM will upgrade all 450 games in the casino to its award-winning iVIZION® bill validator with ICB® Intelligent Cash Box system.

Additionally, JCM will install its iVIZION with ICB and GEN5® Thermal Printer in the newly expanded casino area, which houses approximately 600 games and opened in September.

“With our gaming expansion, we are very happy with our new game offerings and that we have the latest and greatest from JCM to make the guest experience what it should be!” said John Wholihan, Director of Marketing at The Mint Gaming Hall at Kentucky Downs.

“It is an incredible compliment when a partner chooses our products again and again. We are excited for the opportunity to bring even greater security, efficiency, and accountability to The Mint Gaming Hall casino floor at Kentucky Downs and to its exciting new expansion,” JCM SVP Operations, Sales & Marketing Dave Kubajak said.

JCM’s iVIZION is the most widely used and most secure bill validator in the casino gaming industry. Its advanced CIS (Contact Image Sensor) technology reads more than 9.5 million data points on each note; capturing more than twice the data of the nearest competitor product. iVIZION’s powerful combination of optical sensors and mechanical security offers operators unmatched levels of protection against counterfeiters and cheats, all at the industry’s highest acceptance rates.

A perfect companion to iVIZION, JCM’s ICB drop management system brings an innovative combination of management dashboards, mobility, and customizable web reporting that allows users to access essential information securely anytime, anywhere. ICB has been proven to save casino operators hundreds of thousands of dollars annually.

JCM’s GEN5 Thermal Printer has an incredibly fast CPU and print speed, combined with the flexibility to print TITO and promotional tickets, as well as various wager tickets and templated promo coupons, empowering operators to communicate with customers.
