JCM Global Helps Operators Increase Security and Customer Connections at AGE 2018

NEWINGTON, NSW (3 August 2018) – JCM Global has been helping Australian operators increase security and customer connections for decades, and now JCM will showcase its latest solutions at the Australasian Gaming Expo. JCM will be on stand #372.

"Our Australia-based team is keenly focused on the unique needs of Australian operators. We are excited to showcase our solutions at AGE because they exploit JCM's global technological expertise while also giving Australian operators the flexibility to tailor our solutions to their needs," said JCM Australasia General Manager Ian Payne.

JCM's secure solutions start with its award-winning UBA® and iVIZION® bill validators. Operators throughout Australia rely on the UBA, which is updated and accepts the new Australian currency. iVIZION is trusted by operators worldwide because of its powerful CIS technology, which scans more than 9.5 million data points of every note, twice that of the nearest competitor. Its powerful combination of optical and mechanical sensors and mechanical anti-fishing technology offers supreme protection.

Rounding out JCM's bill validation solutions is the TBV™ bulk note feeder, which gives operators the added convenience of accepting multiple notes and currencies simultaneously.

Player convenience increases with JCM's GEN2U™ and GEN5™, which are fast, flexible, and powerful with more memory and faster print speeds.

When coupled with iVIZION and GEN5, JCM's FUZION™ technology gives operators the potential to offer a wide range of convenience options to their customers, including real-time currency exchange with exchange rates, along with a wealth of other functionality.

The ICB® Intelligent Cash Box system is globally proven to decrease errors and increase drop accuracy, saving operators time and money, while also increasing compliance.

Last, JCM will showcase its BlueWave DX firmware upload tool that allows users to quickly update bill validator firmware with less downtime.

Visit JCM on stand #372 at AGE and online at www.jcmglobal.com, and join JCM on Facebook, LinkedIn, and Twitter.
