JCM AMERICAN JOINS WITH TCSJOHNHUXLEY FOR GLOBAL DISTRIBUTION OF NEW TRIDENT™ SYSTEM

LAS VEGAS – A worldwide revolution in table games has begun. At this year's Global Gaming Expo, JCM American revealed its remarkable new product, Trident™. Trident is a table safe system that automates the table game process and for the first time ever provides live, real-time data to the pit. Now, the company is pleased to announce it has entered into a strategic alliance with **TCSJOHNHUXLEY** for international distribution, installation and support of Trident for regions outside the United States.

Under the agreement, **TCSJOHNHUXLEY**'s international offices work with local JCM offices to negotiate contracts, manage and support the local operators in their geographic territories.

JCM President Aki Isoi said, "Trident will change the world of table games. As the global leader in currency validation solutions, it makes sense for JCM to team up with the global leader in table games to bring this technology to the world. We are excited about this agreement, the potential for Trident, and the positive impact it will have on table game operations around the world."

Executive Vice President of Victoria Holdings Ltd. and **TCSJOHNHUXLEY** David Heap said, "For years, our companies have run parallel to each other – we have been developing exciting table games, and JCM has been leading the way in developing currency solutions for the gaming

industry. We are pleased that our paths have come together and are proud to partner with JCM in bringing Trident to the world table game market.”

About Trident™

Trident is a remarkable, patented technology that automates the table game process. This system offers a complete solution for all the supporting processes required by table games within the casino environment – at the table, in the pit, in the count room, for accounting and executive reporting.

About JCM American

JCM American Corporation is the industry leader in currency handling equipment.
