JCM Global to Supply Ticket2Go™ Ticketing System Solution in Luxury Leisure Locations Across the U.K.

DÜSSELDORF, Germany (18 February 2015) – [JCM Global](http://www.jcmglobal.com) and its FutureLogic printer group have entered into an agreement with Luxury Leisure to install its innovative Ticket2Go™ ticketing system solution at Luxury Leisure gaming venues located throughout the U.K.

Luxury Leisure is part of the Novomatic UK Group of Companies, a leading Operator of Luxury Adult Gaming Centers in the UK.

The Ticket2Go installation is the first major rollout of Ticket2Go in the U.K. arcade market following the introduction of new UK TITO protocol standards. The Ticket2Go system allows Luxury Leisure to take advantage of the proven benefits associated with Ticket-In/Ticket-Out (TITO) that provide an enhanced experience for players and allows Luxury Leisure to further optimize their operation.

TITO has been proven worldwide and is recognized as the leading method of cashless payment within the international gaming industry for many years. The introduction of new open TITO protocols specifically designed for the type of machines operated by Luxury Leisure has allowed operators to bring TITO to their gaming operations.

“We have had the pleasure of working closely with Luxury Leisure during the installation of Ticket2Go, and we are thrilled that the product meets their expectations and look forward to our continued partnership with Luxury Leisure,” said Rob Wheeler, Director of Product Management for FutureLogic. “With Ticket2Go, UK-based operators, such as Luxury Leisure, can now implement TITO within their gaming venues and enhance the player experience leading to increased customer satisfaction and retention, as well as optimize their existing operation and achieve a reduction in operating costs.”

Ticket2Go™ is a retrofit ticketing solution for gaming and AWP devices that do not support standard ticketing protocols, and it is the first and only system to work across all the post-2007 legacy machines in a location. Perfect for AWP and low payout gaming machine markets, Ticket2Go delivers a networked TITO solution with a single ticketing solution across the gaming floor. Multi-lingual and multi-currency, Ticket2Go offers a retrofit ticketing solution for gaming machines that do not support open standard ticketing protocols as well as the new GBG UK TITO standards.
