Make Better Customer Connections with JCM Global at OIGA 2016

JCM will be in Booth #1002

LAS VEGAS (July 22, 2016) – Come see what other Tribal members are experiencing and make deeper connections throughout the transaction process at OIGA. [JCM Global](#) will be in booth #1002 with its award-winning product portfolio, including [iVIZION®](#) and UBA® bill validators; GEN2 Universal® thermal printer; and the ICB® Intelligent Cash Box.

“Tribal and commercial operators, in the U.S. and around the world, trust in and rely on JCM Global to provide the highest levels of security and customer convenience. We take that trust very seriously, and are constantly innovating and continuously improving our products to protect our clients,” said JCM Global Vice President of Sales Jason Cribbs.

iVIZION is the preferred bill validator of Tribal operators everywhere, and it is field-proven to have the industry’s highest acceptance rate of 99%+ acceptance rate. Its innovative Contact Image Sensor (CIS) technology sees the entire front and back of a note or ticket, for the highest levels of security, and its anti-stringing technology protects operators at both ends of the transactions. Additionally, iVIZION is the foundation of intelligent validation, with a future-proof platform for ongoing development.

The award-winning UBA is equipped a patented stacker apparatus and with superior magnetic and optical sensing capabilities combined with leading anti-pullback technology.

JCM’s ICB 3.0 system increases accuracy and eliminates human error throughout the entire drop process, and its web reporting empowers users to view reports from the casino floor in real time.

Completing the transaction cycle is the award-winning GEN2 Universal thermal printer, which features universal communication ports, a larger paper capacity, Intelligent Ticket Handling® technology, and jam-reducing IntelligentBezel™ system.

Join JCM in booth #1002 at OIGA and on [Facebook](#), [LinkedIn](#) and [Twitter](#).
