LAS VEGAS (July 24, 2009) – The new \$195 million River Spirit Casino recently opened in Tulsa, Okla., and is exclusively operating with JCM Global's Universal Bill Acceptor (UBA®) and Intelligent Cash Box (ICB®) on the casino's 2,745 gaming devices.

River Spirit is the 32<sup>nd</sup> casino in the world to purchase and operate exclusively with JCM Global's UBA and ICB, providing superior acceptance and counterfeit detection while managing currency transactions. The installation brings the total worldwide number of devices operating with the powerful UBA/ICB combination to more than 56,000.

Jim Dickstein, Director of Casino Operations said, "The new River Spirit Casino is a dream come true for our Tribe and was a significant investment. We wanted only the best in our casino, and we selected JCM Global products after reviewing products from JCM and their competitors. JCM's products fit right in line with our desire to have the best products available."

Muscogee (Creek) Nation Gaming Commissioner Jason Nichols added, "The JCM ICB technology eliminates mistakes associated with manual input systems and maximizes count room efficiency."

The UBA/ICB combination helps a casino to increase its accounting accuracy with advanced technological solutions, such as UBA's overt and covert note sensing and ICB's triple electronic check and suite of reports. The result is a powerful combination for the highest levels of accuracy, accountability and security possible.

In addition to JCM Global's UBA and ICB, the casino also exclusively installed the Epic 950® from JCM alliance partner TransAct Technologies.
