JCM Global's Technology and Solutions Help Retailers Create Better Connections at Retail's Big Show

JCM in Booth #520

LAS VEGAS (January 6, 2015) – Connecting with customers is critical to every retailer's success, and at [Retail's Big Show](#) this January, [JCM Global](#) will show cutting-edge technology and solutions that take retailers beyond mere transactions to actual customer connections.

JCM will be in booth #520 showing the very latest in transactional currency validation, receipt printers and remote management technologies integrated into actual retail assisted and self checkout applications.

Better, smarter, faster transactions and connections begin with JCM's award-winning [iVIZION®](#) transactional currency validator, with Contact Image Sensor (CIS) technology that scans the **entire** banknote image. The powerful Transactional Bill Validator (TBV™) is ideal for very high-volume applications.

For retailers who rely on note recycling, there is no better choice than JCM's incredible iPRO-RC™, and JCM's DBV-500™ is a scalable currency validation solution for low to high-volume applications that lets retailers manage cash better, smarter and faster.

The connection continues with JCM's flexible Transformer™ thermal printer with adjustable spindle arms, giving retailers the ultimate in configuration flexibility. The Spill Proof printer is designed to protect operations from "oops" moments, safeguarding against liquid. The GEN2 Universal® printer has ProColor™ 2-color printing technology and an easily accessible USB port for easy firmware updates; and the KBM-60 thermal printer withstands even the harshest of outdoor applications from -30°C to +70°C.

Also on display are live examples of JCM Connectivity, such as the Volumatic CCI, an incredible one-touch cash processing and storage system. Mounted discreetly underneath a register, CCI validates, counts and securely stores cash automatically with the security of its state-of-the-art anti-counterfeit technology. CCI reduces cash handling time by 85 percent, streamlining operations, eliminating human error and shrink, and CCI provides corporate offices real-time access to cash figures at their locations.

Create connections with your customers in JCM Global's booth #520 during Retail's Big Show or start now at www.jcmglobal.com.

About JCM Global

JCM Global is the world's leading transaction technologies supplier for the banking, retail, kiosk and gaming industries.
