The JCM web site provides the tools you need, including the software information database with DIP switch information, our photo parts catalog, online ordering form, repair service, and more.

Parts are Parts

ICB Module Board In and Out of Holder

Part No. 105875

Description: ICB Module Circuit Board

Usage: The ICB module board is the Cash Box component of the ICB system. It can be added to existing Cash Boxes to upgrade the casino floor to the ICB Reporting system.

This system handles the identification of the Cash Box asset number to the soft count room during the drop process. The ICB system also collects 42 fields of information that provide reports on accounting information, security data and Validator performance

Note: The unit operates on a 3.6 volt lithium battery that provides 7 years of service.

The list of JCM bill validator software provided herein notifies customers of the latest versions developed. However, the listing does not identify versions approved by gaming jurisdictional authorities for actual use. Customers should consult JCM's Customer Service/Parts Sales departments concerning approved versions for jurisdictions of intended use.

NOW AVAILABLE on select IGT, Bally, WMS, Atronic, Summit & VLC Machines!

Sentry® is the latest product released by JCM. Sentry is a smart bill entry port with LED icons displaying the acceptance of up to six denominations plus barcode and last bill entered. There are also five error icons and a cashbox full indicator icon. With an easy machine retrofit, Sentry offers features appealing to both players and operators. Contact your local JCM sales representative for additional information.

IMPORTANT ANNOUNCEMENT

The Federal Reserve Board announces March 2, 2006 as the Release Date for the new U.S. \$10 Bill.

Visit www.moneyfactory.gov/newmoney.htm for more detailed information.

Technical Bulletin 200512 December 2005

Holiday Message

JCM has had a positive and successful year and we want to thank each and every one of our customers for being a part of our success. Each of you make a distinct and a significant impact in the way JCM is continually able to design, produce, and release innovative new products year after year.

This year JCM released new business solutions to the industry that have been truly inventive and successful.

- The UBA (Universal Bill Acceptor) and its combination of advanced sensing technologies with the SENTRY intelligent bezel and the ICB (Intelligent Cash Box System), are providing more financial and performance information than anyone has ever had access to before.
- The Trident System (Table Transaction Management) allows operators to control their table game transactions and gather performance and financial information in ways that have never been available on table games.
- Combine these types of technologies with our desire to identify and provide business solutions with other leading companies like TransAct (Thermal Printers) and Tovis (Monitors) and its easy to see why this has been such a positive year.

The holidays are one of our favorite times of the year at JCM because we get the privilege of thanking all of our customers for allowing us to provide you with our products, services, and solutions. We genuinely enjoy the friendships that we make while we do business.

Thank you.

JCM Wishes You and Yours
