[www.jcm-american.com](http://www.jcm-american.com)

The JCM web site provides the tools you need, including the software information database with DIP switch information, our photo parts catalog, online ordering form, repair service, and more.

## Parts are Parts

Cashbox Conversion Kit Parts

**Part No.** 701-000058 & 701-000060

**Description:** ICB Cashbox Conversion Kit & ICB WBA 12/13 SS Conversion Kit

**Usage:** Two ICB Conversion kits available to upgrade existing WBA platforms to utilize the new ICB technology.

**Note:** The Intelligent Cash Box system streamlines the drop and soft count procedures providing a time saving and accurate identification of asset numbers. The system also gathers data from transactions occurring at the validator that can be utilized by several departments in the casino. Accounting, Security, and Slot repair can monitor validator performance. All of this data is updated and available with every drop cycle.

Technical Bulletin 200510 October 2005

## Technical Tips

### About the New \$10 Notes

The new \$10 note, which is the third denomination to be redesigned in the series, includes subtle shades of orange, yellow and red along with images of the Statue of Liberty's torch and the words "We the People" from the United States Constitution. The new \$10 note will enter circulation in early 2006.

### Security Features

The redesigned \$10 note also retains three of the most important security features that were first introduced in the 1990s and are easy to check: color-shifting ink, watermark and security thread.

**Color-Shifting Ink:** Tilt your ten to check that the numeral "10" in the lower right-hand corner on the face of the note changes color from copper to green. The color shift is more dramatic on the redesigned notes, making it even easier for people to check their money.

**Watermark:** Hold your ten up to the light to see if a faint image of Treasury Secretary Alexander Hamilton appears to the right of his large portrait. It can be seen from both sides of the note. On the redesigned \$10 note, a blank oval has been incorporated into the design to highlight the watermark's location.

**Security Thread:** Hold your ten up to the light and make sure there's a small strip embedded in the paper. The words "USA TEN" and a small flag are visible in tiny print. It runs vertically to the right of the portrait and can be seen from both sides of the note. This thread glows orange when held under ultraviolet light.

To protect our economy and your hard-earned money, the U.S. government expects to redesign its currency every seven to ten years.
