Conditions:

In an ongoing effort to improve product performance in extreme environmental conditions, JCM Engineering has developed a cover to be used on units that are operating in environments at risk for liquid spills, (bar top, etc).

Resolution:

This cover (CPU Waterproof Shield, P/N 900-200205RA), (Refer to Figure 1) is placed over the CPU to prevent damage caused by spills (Refer to Figure 2). This will become standard on production UBA units as of September, 2008.
